

**THE EMBODIMENTS OF THE INVENTION IN WHICH AN EXCLUSIVE PROPERTY
OR PRIVILEGE IS CLAIMED ARE DEFINED AS FOLLOWS:-**

/WHAT I CLAIM AS MY INVENTION:-

1. A pelting system comprising:

- 5 a. a template having the standard form and size of industry standard pelts,
- b. a plurality of evenly-spaced perforations along the periphery of each size
 template,
- c. pointed nails,
- d. a method in which to gain the most from a fur pelt,

10 2. The pelting system of claim 1 wherein said template may come from a printed sheet
 material to be transferred to a rigid planar sheet material of suitable thickness to
 provide lateral support to nail.

15 3. The pelting system of claim 2 wherein the rigid planar sheet material is preferably
 plywood.

 4. The pelting system of claim 1 wherein the plurality of perforations have beveled
 edges so as to ease the entry of a nail.

 5. The pelting system of claims 1 and 4 wherein the plurality of perforations further
 comprise a slight outward tilt when regarded from rear to front of sheet.

6. The pelting system of claim 1 wherein the pointed nails are further sharpened so as to prevent further damage to pelt edge.
7. The pelting system of claims 1, 4 and 5 wherein the perforations traverse the entire thickness of the rigid planar sheet material.
8. The pelting system of claims 1, 4, 5 and 7 wherein said perforations have an diameter slightly greater than the outside diameter of the pointed nails.
9. The pelting system of claims 1 through 8 wherein use thereof is to increase the accuracy of pelt output in industry so as to make the most of each fur.
